DX Ray RK

DX Ray RK

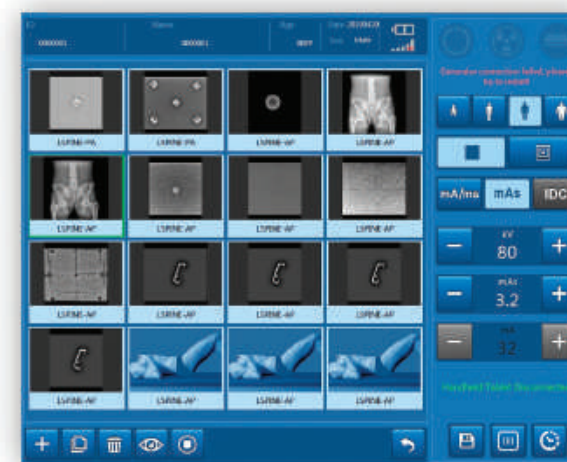

DX Ray RETROFIT KIT is a smart solution to turn an existing analogue system into a digital one.

USER'S INTERFACE:

DX Ray SOFTWARE provides complete control of all image capture functions within the examination room, enhancing the entire workflow by delivering diagnostic images instantly, and allowing users to move X-ray images electronically to remote workstations, image archives and printers.

Unscheduled Date	Scheduled Time	Patient Name	Patient ID	Sex	Birthday	Age	Accession No.
2020/03/23	14:30:00	John	04021805	Female	20/03/20	20Y	201805

HIGHLIGHTS

- Wireless, portable detector with WLAN and Battery
- Easy integration into an existing X-ray system
- 100 % touch-capable user interface
- Cordless and lightweight wireless flat panel detector
- For the use with mobile X-ray systems
- Auto-trigger mode (AED function)
- (No need to synchronise with the generator)
- Excellent image quality through an integrated operating program with DX Ray image processing
- Detector format: 35 × 43 cm & 43 × 43 cm.

The new X-RAY generation
Digital Radiography Solution
